AVAILABILITY REQUESTS AND RATES

The CA command (Car Availability) will display all available cars for the requested period of time at the given location. Rates and conditions returned are based on and triggered by the CD number used for the request (if no CD number is used public rates will be returned, see rate details):

CQSXFRA/22NOV-22NOV/0900-1800	CA for Frankfurt Airport, date, arrival 09:00h, same day return 18:00h

Scrolling functions

MD	move down to next (results-) page
MU	move up to previous (results-) page

Direct car sell from car availability

OC1	direct car sell for offer in line 1 driver will be passenger 2 of the PNR
CS3/SI-PREF BMW	direct car sell for offer in line 3 with additional special information, e.g. customer prefers BMW

Corporate discounts

Examples for using different kinds of customer numbers

CD-791234	enter a company's corporate discount (CD) number.
ID-1234567	SIXT personal loyalty number (identifying a certain driver profile that may store additional information on this specific driver in the background)

This is an example for a direct sell at a negotiated corporate rate for a driver holding a SIXT loyalty card number:

OCARSXNN1MUC29AUG-31AUG/ECMR/ARR-10A/RET-10A/CD-791234/ID-1234567

Please note:

If you wish to place a reservation at a negotiated corporate rate please remember to always use the CD number in your GDS commands (availability and sell). If no CD number is used public rates will be returned and reserved. Adding a CD number into an existing reservation will not automatically change the reserved rate.

Please use commands /CD- and /ID- only for the intended information (CD for company contract numbers and agency rate codes only; ID for personal loyalty card numbers only).

Providing your agency number is not necessary. Your agency number will be transmitted automatically in the background. Entering your agency number in the /CD- command will NOT return agency rates. Instead agency rates are being returned with special CD numbers that need to be entered using the /CD- command. Please ask your SIXT contact or your SIXT Travel Agency Hotline in case you are unsure which agency rates and CD numbers should be used.
